### Graphical Displays for Data

**Example 1:** A pharmacy records the number of customers each hour that the pharmacy is open. The staff is using the information to determine how many people need to be working at the pharmacy at each time of the day. The number of customers is in the table below. Use the table to create a histogram to help the pharmacy staff understand how many customers are in the pharmacy at each time of day.

| Time Frame              | Number of customers |
|-------------------------|---------------------|
| 8:00 A.M. - 9:00 A.M.   | 2                   |
| 9:00 A.M. - 10:00 A.M.  | 0                   |
| 10:00 A.M. - 11:00 A.M. | 8                   |
| 11:00 A.M. - 12:00 P.M. | 14                  |
| 12:00 P.M. - 1:00 P.M.  | 23                  |
| 1:00 P.M. - 2:00 P.M.   | 12                  |
| 2:00 P.M. - 3:00 P.M.   | 7                   |
| 3:00 P.M. - 4:00 P.M.   | 3                   |
| 4:00 P.M. - 5:00 P.M.   | 5                   |

**Example 2:** Anna and Ethan watch 10 thirty-minute shows during the month of June. They record the number of food commercials that air during each show in the table below. Create a dot plot to display the number of food commercials that aired during the 10 shows.

| Shows | # of Commercials |
|-------|------------------|
| A     | 7                |
| B     | 7                |
| C     | 5                |
| D     | 7                |
| E     | 4                |
| F     | 7                |
| G     | 5                |
| H     | 9                |
| I     | 5                |
| J     | 6                |

4, 5, 5, 5, 6, 7, 7, 7, 7, 9

**Example 3:** Ray's scores on his mathematics tests were 70, 85, 78, 90, 84, 82, and 83. Draw a box plot to represent Ray's Data.

70, 78, 82, 83, 84, 85, 90  
 ↑                    ↑                    ↑  
 Q1                    Q2                    Q3

Find the IQR.

$85 - 78 = 7$

Are there any outliers?

$Q1 - 1.5(IQR)$   
 $78 - 1.5(7) = 67.5$

$Q3 + 1.5(IQR)$   
 $85 + 1.5(7) = 95.5$

**NO OUTLIERS**

nothing less than 67.5      nothing greater than 95.5
